

## BUSINESSREPORTER PROJECTS/TIME

Would you like to have your own company-specific reports in AccountView? If so, you can use the powerful *BusinessReporter Projects/Time* module to create professional user reports.

Have you used the *BusinessModeller* and *BusinessDimensions* modules to make additions to AccountView for use with your employee administration? If so, you can use the *BusinessReporter Projects/Time* module to create additional reports for these.

### FOR WHOM?

For everyone who wants to get more information out of their accounting system than just the standard reports.

\* Logical extension of the *BusinessModeller Projects/Time* and *BusinessDimensions Projects/Time* modules.

### CUSTOMISED REPORTS

Compose reports in any AccountView window, containing the exact information that you require. For example, create additional reports about your subledgers or put together an integrated report containing data from AccountView and data from your industry-specific solution. You can find these reports integrated into the standard reports in AccountView.

### HANDY WIZARD

Make use of the handy wizard to compose your own user reports. You can also use this wizard when designing to view the draft result and make immediate adjustments.

### PERFECT ORDER

You can keep your user reports in perfect order in a separate window so they cannot be changed with authorisation. In this window you can also activate the wizard again to make any desired changes.

## BUSINESSREPORTER PROJECTS/TIME

The screenshot shows a software window titled 'AccountView - Your Advice Ltd - GBP'. The main content area displays a report with the following data:

Your Advice Ltd - GBP				
Employees Contract Terms				
Marital Status	Name	Nationality	Education	Laptop ID
LT	Lunge, de	NL	UNIV	4852
	Saunders	UK	TCH_COLL	0749
Marital Status	Name	Nationality	Education	Laptop ID
MAR	Aalbers	UK	UNIV	8575
	Adler	DE	TCH_COLL	8574
	Beas	NL	UNIV	5852
	Boyer	UK	UNIV	8375
	Christian	DE	HIGHSCH	2847
	Comers	UK	UNIV	4885
	Moore	UK	HIGHSCH	3847
Marital Status	Name	Nationality	Education	Laptop ID
SIN	Aldridge	UK	UNIV	5938
	Bowman	UK	TCH_COLL	2008
	Miller	UK	TCH_COLL	4783
	Parsons	UK	UNIV	5747

With the *BusinessReporter Projects/Time* module, you can compose any report you wish. You do not need any knowledge of programming or of the database to do this. For example, you can easily draw up a report on the employments terms of your employees.

### FOR EXPORT FILES TOO

Create export files quickly and at a single stroke by defining a complete export definition to your own specifications. When you have done this, just select this definition from the menu to execute the export. This is convenient if you want to add up-to-date data to your industry-specific solution or update your website.

### DIRECT LINK TO EXCEL

Transfer report data directly to Excel, linking it immediately with macros to produce professional reports and analyses quickly. In this way, you can benefit from Excel's excellent reporting and analysis facilities.

### ADVANTAGES

- Optimum ease of use, because you do not need any knowledge of programming or the database, and reports automatically get the 'look and feel' of AccountView reports.

- Flexible layout options, including portrait or landscape format and letter font, style and size.

- Complete integration with tables and fields that have been added using the *BusinessModeller Projects/Time* and *BusinessDimensions Projects/Time* modules.

- Powerful standard functionality, such as ability to export to Excel, send by email and save as a PDF file.
